

Yajan Shah

Software Developer | Web Applications & Deployment

✉ Yajan.2323@gmail.com ☎ +91 7230026199 📍 Jaipur, Rajasthan

Summary

Computer Science Student specializing in Web Development and Digital solutions, Experienced in Building Responsive Websites using modern Frontend Frameworks, Passionate about Creating Scalable Web Platforms and Helping businesses grow through Technology.

PROJECTS

Cafe Ordering Web App

- Developed a responsive cafe ordering system with QR-linked dine-in table ordering and public takeaway mode.
- Built customer order flow including menu browsing, cart management, order confirmation, and payment selection.
- Created admin dashboard functionality for managing orders, menu categories, table activity, and popular items.
- Implemented table-specific URL sessions to connect each QR scan with the correct dine-in table.
- Deployed the application on a live domain with DNS/server configuration and production hosting setup

News App (Android, REST APIs)

- Built an Android news application that fetches and displays real-time articles from external REST APIs.
- Designed responsive XML-based UI screens for category-wise news browsing and article reading.
- Integrated API response handling to display dynamic news content with clean formatting and smooth navigation.
- Added local data handling to manage app state, user interactions, and saved content.
- Improved user experience through structured layouts, clear navigation, and mobile-friendly design.

Natural Beekeeping Business Website

- Developed a responsive business website for a honey and beekeeping brand to showcase products, services, and brand story.
- Designed product-focused sections for honey offerings, sustainability messaging, customer trust, and service information.
- Built mobile-friendly layouts using HTML, CSS, JavaScript, and Bootstrap for consistent viewing across devices.
- Added contact and inquiry sections to help customers connect with the business.
- Deployed the website on a live domain with DNS and hosting configuration

Skills

Languages

HTML, CSS, C++, JavaScript, PHP, MySQL

Frameworks/Libraries

Bootstrap, React(Basics)

Concepts

REST APIs, CRUD Applications, Responsive Design, Admin Dashboard, Order Management System

Tools

Excel, Figma, VS code, Git, GitHub

Database Management

MySQL

Experience

Data Analytics with tableau Workshop, Jaipur

03/2023

- Acquired advanced data visualization and dashboarding techniques using Tableau, applied to real-world dataset.
- Tableau dashboarding techniques, transforming raw data into actionable insights
- Held at Swami Keshvanand Institute of Technology

Internet of Things Workshop, Jaipur

11/2022

- Workshop focused on IoT technologies and their applications.
- Built IoT prototypes and learned integration with cloud-based platforms Innovated IoT prototypes and integrated cloud-based communication systems.
- jointly organised by departments of Electronics and communication engineering and Computer science engineering.

Achievements & Extracurriculars

Logistics Manager

- Spearheaded logistics for the "Horror Room" event, streamlining operations for 300+ participants, cutting setup time by 20%, and optimizing budget utilization.

Education

Bachelors of Technology (CSE), <i>Swami Keshvanand Institute of Technology, Jaipur</i>	04/2025
Expected	
High school Graduation, <i>St. Paul's Sr. Sec. School, Banswara</i>	2007 – 2020
